

Room and equipment requirements

We can still make magic happen with no tech or furniture! If there are things you can't supply, let me know and we can sort it out.

But, given the choice it would be great to have the following set up:

Large audiences

Large screen

Projector with good quality projection (I'll bring the laptop)

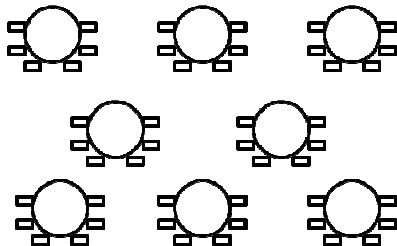

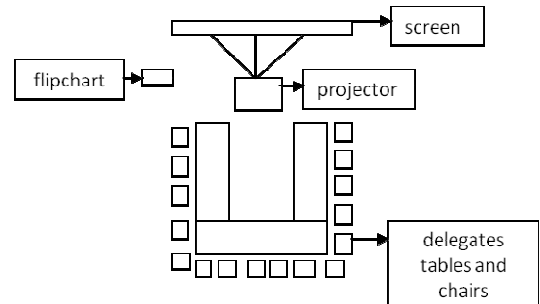

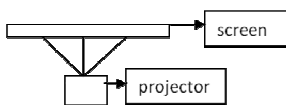

Sound system, head or lapel mic, video filming

Sufficient sockets and cables to make it all work

If less than 50 delegates

Flipchart stand and paper (I'll bring the pens)

Horse shoe of tables and chairs for delegates ⇨

⇨ or cabaret style
